

AvediaPlayer Plugins

Datasheet (avply-pg, artio-pg)

AvediaPlayer Plugin Software

Play

AvediaPlayer Plugin delivers SD and HD TV and video to PCs or PC-based digital signage devices, seamlessly adding video to existing systems

- Play back in Windows Media Player
- Add live TV and VoD to digital signage applications
- Customize engaging digital signage to distribute information and advertise products and services
- Select from live broadcast SD and HD TV, Radio or VoD content
- Easy to roll out and upgrade with MSI based installer
- Single DirectShow filter simplifies embedding into digital signage applications
- Individual or central floating licensing options
- Industry standard content protection with SECUREMEDIA encrypted playback

Software Features

Streaming

- MPEG-2 Transport Stream (ISO/IEC 13818-1)
- RTP, UDP, IP multicast
- IGMPv2/v3
- Video on Demand: RTSP

Content Protection

- ARRIS SECUREMEDIA® DRM protected broadcast content playback
- Compatible with SECUREMEDIA stream encryption, client authentication, authorization and key management
- SECUREMEDIA Server and platform required
- SECUREMEDIA Client Software Broadcast license required for each AvediaPlayer Plugin

Additional Features

- Command line installation with quiet option for IT managed mass deployments
- Overscan cropping
- Web page integration via embedded Windows Media Player object
- Play content using a metafile playlist
- DirectShow Integration for low level integration into products such as Digital Signage
- Floating license failover in multi-AvediaServer installations
- Automatic channel failover to alternate channel

Delivery

AvediaPlayer Plugin is supplied for installation onto a Windows PC and enables IPTV stream playback from Windows Media Player or Digital Signage systems. The AvediaPlayer Plugin is individually licensed (avply-pg) based on PC MAC address. From V5 on, the plugin can also be licensed over a network using a floating license (artio-pg) held on an AvediaServer.

Video Decoding

- MPEG-4 part 10 H.264 (ISO/IEC 14496-10)
- MPEG-4 part 2 (ISO/IEC 14496-2)
- MPEG-2 (ISO/IEC 13818-2)
- Resolutions all up to 1080p
- SECUREMEDIA-protected stream playback

Audio Decoding

- MPEG-1 Layer II (ISO/IEC 11172-3)
- AAC/HE-AAC
- LATM DVB-T2 encapsulation
- Downmix multi-channel audio to stereo
